⚙️ React 🌀 Tailwind 📄 Node.js 📦 Git

🐳 Docker ☕ Java

🎓 Educations

Father Saturnino Urios University

Bachelor of Science in Information Technology

📍 Butuan, Philippines 📅 2018 - 2025

📁 Experiences

Upwork

Freelance Developer

📍 Remote - USA

📅 2021 - Present

Freelance developer on Upwork delivering web, mobile, and Minecraft server solutions. Collaborated with clients on custom plugins, gameplay features, full-stack applications, and mobile builds. Experienced in adapting to varied workflows, meeting client expectations, and providing reliable results both independently and within teams.

Office of Civil Defense Caraga

Software Developer Intern

📍 Bancasi, Philippines

📅 Feb - May 2025

Intern at the Office of Civil Defense Caraga, where I developed three internal systems to improve operational efficiency. Designed, built, and deployed solutions featuring data management, task tracking, and emergency coordination. Applied full-stack development skills in a government environment while strengthening independence, time management, and delivery under real-world requirements.

Hydreon

Contract Developer

📍 Remote - USA

📅 Jan - Oct 2024

Contract developer at Hydreon, working with a distributed team to port Minecraft Bedrock gamemodes from PHP to Java for the Java Edition. Translated gameplay systems and logic while maintaining the intended player experience across platforms. Contributed to consistent functionality, performance improvements, and strengthened expertise in cross-platform architecture and collaborative development.

YouHQ

Lead Minecraft Developer

📍 Remote - Australia

📅 Dec 2022 - June 2023

Served as the sole Minecraft developer in a 7-person startup building a tournament project designed to broadcast gameplay via satellite. Managed server setup, plugin development, and performance optimization while independently solving complex technical challenges. Gained strong experience in server management, real-time systems, and working effectively under pressure.
